## My work:

In this project I have work on both part of the project means coding part and documentation part. In documentation, I have written the functional part of the document and in coding part I have written the Notification of app, use of calendar at various places and recycler view implementation.

## Group members work:

1. Muhammad Imtiaz: He works on documentation which includes SRS, minutes of meeting. He also helped us in the coding part of forget password, data retrieval on parent side.
3. Muhammad Haroon: He works on front end of our project.
4. Bilal Yousef (14031236): He works on database, then he works on backend coding in which he has done data entering into database part.
5. Zainab was designing firebase database and optimizing it.
